

Cleaners

ALGAFLOOR

Concentrated pH neutral cleaner for daily cleaning of polished or compact surfaces, or surfaces with a low degree of absorption.

ALGAFLOOR is a concentrated pH neutral cleaner with very low residues. It is used specifically for daily cleaning of any type of surface with a minimum degree of absorption, where traditional products tend to leave annoying surface residues that can cause problems with stains and which are generally found on surfaces where absorption is low. **ALGAFLOOR** has an excellent surface cleaning action and also leaves behind a pleasant, lasting clean fragrance.

ALGAFLOOR is quick and easy to use. It is applied with the traditional surface cleaning tools, needs no rinsing, and its effective dirt-removing action will not damage materials.

CHARACTERISTICS AND BENEFITS

- ✓ **Excellent cleaning power**
- ✓ **pH neutral:** mild product
- ✓ **Needs no rinsing.**
- ✓ **Leaves behind a pleasant clean perfume**
- ✓ **Does not damage treated material**
- ✓ **Does not create a surface film**
- ✓ **Will not affect surface appearance**

USES

This product **can be used** on both indoor and outdoor surfaces.

Suitable for use on: Cement marble agglomerate, Marble resin agglomerate, Quartz-resin agglomerate, Molten basalt, Craquelé ceramics, Glazed ceramics, Clinker, Granite, Lapped porcelain stoneware, Polished porcelain stoneware, Natural porcelain stoneware, Textured porcelain stoneware, Limestone, Marble, and Travertine.

COVERAGE

900-1100 m²/l

APPLICATION EQUIPMENT

Cloth, mop, single disc machine, hard floor cleaner

Cleaners

ALGAFLOOR Concentrated pH neutral cleaner for routine cleaning of polished or compact surfaces, or surfaces with a low degree of absorption.

APPLICATION STEPS

Preparing and cleaning the surface

1. Before proceeding to wash the surface with Algafloor, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner,

Application

2. The product must be diluted in clean water:

- 10-20 grams in 5 litres water (2-3 capsful of product in a bucket of water), if used on porcelain stoneware, ceramics, and quartz agglomerate
- 30-40 grams in 5 litres water (4-5 capsful of product in a bucket of water), if used on natural stone with a polished finish

After diluting the product with water according to the proportions listed above, proceed to wash the surface using a preferred method. Wash the floor covering or the area concerned, distributing a fine layer of the prepared solution, scrubbing harder in the case of more stubborn dirt.

If used in the dilution ratios stated above, the floor will not require rinsing and it can be opened to foot traffic as soon as it is dry.

INSTRUCTIONS AND GUIDELINES

– This product is applied without any specific instructions or guidelines.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Transparent liquid
Colour:	Green
Odour:	Typical
pH:	6,0 / 7,0

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

PACKAGING

- 1 l bottles - 12 bottles per box
- 5 l cans – 4 cans per box
- 10 l cans – loose cans

Cleaners

ALGAFLOOR Concentrated pH neutral cleaner for routine cleaning of polished or compact surfaces, or surfaces with a low degree of absorption.

HAZARD IDENTIFICATION

H319	Causes serious eye irritation
