CP 5

Maintenance treatment with scratch-proof properties for surfaces treated with acid-proof treatment AS 930 CP

LINEA
PROFESSIONALE

CP 5 is a water-based ready to use product to be used for the maintenance of surfaces previously treated with the acid-proof treatment AS 930 CP. The product increases the scratch resistance of the surface and increases the lasting and effectiveness of the acid-proof properties.

CHARACTERISTICS AND BENEFITS

- ✓ Increases the lasting of AS 930 CP acid-proof properties
- ✓ Increases the scratch-resistance of the surface

USES

This product **can be used** on both indoor and outdoor surfaces.

Suitable for use on all the surfaces previously treated with AS 930 CP

COVERAGE

40/50 m²/l

APPLICATION EQUIPMENT

Micro-fiber cloth; non-woven fabric

APPLICATION STEPS

Spray the product on the surface and distribute omogeneously and evenly by using a non-woven fabric cloth or a micro-fiber cloth. Wait the complete drying of CP 5. After the drying remove the residues and re-polish the surface simply using the same cloth used for the application. Before Apply CP 5 on the surface, wait for the complete drying of the treatment AS 930 CP previously applied.

INSTRUCTIONS AND GUIDELINES

- Never apply the product to wet, damp or dirty
- Do not apply the product to overly heated surfaces.
- After applying a layer of AS 930 CP, let it curing without re-touching or intervening in the treated area before it is completely dry; this is to prevent uneven finishes after drying.
- Avoid to use blades directly on the surface, using instead a proper cutting board

EQUIPMENT CLEANING

At the end of application, the equipment used can be cleaned using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.
