

FABER POULTICE

Powder adjuvant thickener for Faber stain removers

LINEA
PROFESSIONALE

FABER POULTICE is a powder thickener to use with certain stain removers in the Faber range. It adds consistency for application over longer periods and to be able to use products on vertical surfaces. It is inert towards the substances contained in the Faber stain removers with which it can be used. A stain remover with the addition of **FABER POULTICE** will have a much thicker consistency for much longer contact time with stains compared to what is possible when using the same product in its liquid form. This boosts the efficiency of the whole stain removing process.

FABER POULTICE is normally used together with *OXIDANT* and *NO RUG* products, but that can also be used with all of the stain removers in the Faber range.

CHARACTERISTICS AND BENEFITS

- ✓ **Top-level thickening power**
- ✓ **Suitable for use with all Faber stain removers**
- ✓ **Increases contact time between stain and stain remover**
- ✓ **Will not alter the characteristics and properties of stain removers.**

USES

See the stain remover you intend to thicken with Faber Poulitice

COVERAGE

300-400 grams per litre of stain remover for use on horizontal surfaces
400-500 grams per litre of stain remover for use on vertical surfaces

APPLICATION EQUIPMENT

Spatula

APPLICATION STEPS

Preparing and cleaning the surface

See the instructions for the stain remover you intend to thicken with Faber Poulitice

Mixing

Pour the stain remover into a bucket or sufficiently large container and then gradually add the correct amount of **FABER POULTICE**. Use a spatula or other suitable instrument to mix. Continue to stir gently until the mix is even and free from lumps.

Application

See the instructions for the stain remover you intend to thicken with Faber Poulitice.

Opening to floor traffic

Stain removers

FABER POULTICE - Powder adjuvant thickener for Faber stain removers

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and carefully follow the instructions on the product safety data sheet.

PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Powder
Colour:	White
Odour:	Odourless
Specific Gravity at 20°C	350 ± 10 g/l
pH	N.R.

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

24 months in the original, sealed packaging, stored in a cool, dry place.

PACKAGING

5-litre tubs

HAZARD IDENTIFICATION

Product not subject to classification according to the regulations.

Version 2.0 – 17/10/2016
