

NEUGEL

Concentrated pH neutral cleaner for routine cleaning of natural stone or absorbent surfaces

NEUGEL is a concentrated pH neutral cleaner specifically for routine cleaning of all natural surfaces and those materials that are characterised by a medium or medium-high degree of absorption.

NEUGEL is extremely effective on dirt but gentle on the surfaces it is used to clean. Thanks to the special formula, which is rich in natural ingredients, **NEUGEL** nourishes surfaces to bring out their full tone and with time, to increase their dirt resistance. This also applies to particularly rough and absorbent materials, such as cotto and terracotta. **NEUGEL** can be used on waxed or treated floors without affecting the efficiency of the protective treatment. On the contrary, **NEUGEL** adds to the protective effect of the treatment already applied to the surface.

NEUGEL has an excellent surface cleaning action and also leaves behind a pleasant, lasting clean fragrance. **NEUGEL** is quick and easy to use. It is applied with the traditional surface cleaning tools, needs no rinsing, and its effective dirt-removing action will not damage materials.

CHARACTERISTICS AND BENEFITS

- ✓ **Excellent cleaning power**
- ✓ **Gentle on surfaces but effective against dirt.**
- ✓ **Ideal on materials with medium or medium-high absorption**
- ✓ **Needs no rinsing.**
- ✓ **Leaves behind a pleasant and lasting clean fragrance.**
- ✓ **Does not damage treated material**

COVERAGE

900-1100 m²/l

APPLICATION EQUIPMENT

Cloth, mop, single disc machine, hard floor cleaner

Cleaners

NEUGEL

Concentrated pH neutral cleaner for routine cleaning of natural stone or absorbent surfaces

APPLICATION STEPS

Preparing and cleaning the surface

1. Before proceeding to wash the surface with Neugel, it is advisable to clean away any surface residues, such as dust, debris and coarse dirt, using a broom or a vacuum cleaner,

Application

2. The product must be diluted in clean water:

- 20/30 grams in 5 litres water (2-3 capsful of product in a bucket of water), if used on materials with medium absorption, such as marble or granite.
- 30/40 grams in 5 litres water (4-5 capsful of product in a bucket of water), if used on materials with high or medium-high absorption, such as cotto or terracotta.

After diluting the product with water according to the proportions listed above, proceed to wash the surface using a preferred method.

Wash the floor covering or the area concerned, distributing a fine layer of the prepared solution, scrubbing harder in the case of more stubborn dirt.

If used in the dilution ratios stated above, the floor will not require rinsing and it can be opened to foot traffic as soon as it is dry.

INSTRUCTIONS AND GUIDELINES

- This product is applied without any specific instructions or guidelines.

EQUIPMENT CLEANING

At the end of application, the equipment used can be washed using water.

SAFETY

When applying the product, always use suitable personal protective equipment and follow the instructions on the product safety data sheet with care.

PHYSICAL AND TECHNICAL INFORMATION

Aspect:	Gel
Colour:	Green
Odour:	Mint
pH:	8,5±0,5

STORAGE

Keep the container tightly closed and store in a cool, dry place.

SHELF LIFE

36 months in the original, sealed packaging, stored in a cool, dry place.
